**LOGANSPOUT UTILITIES
UTILITY SERVICE BOARD
SEPTEMBER 22, 2026
MINUTES OF THE MEETING**

CALL TO ORDER

Chairman Bob Dunderman called the Utility Service Board meeting to order at 5:00 p.m.

PLEDGE OF ALLEGIANCE

ROLL CALL

Chairman Bob Dunderman, Board Vice-Chair Mike Meagher, Board Secretary Marty Monahan, and Board Member Matt Swisher were in attendance. Board Member Mercedes Brugh was absent.

Also present were CEO/Superintendent Greg Toth, City Attorney Kelly Leeman, City Council Members Dave Morris, Hayley Zinsmaster, and Chris Howard, as well as LU employees, and visitors.

LU MISSION STATEMENT

Board Secretary Marty Monahan read the Mission Statement.

APPROVAL OF MINUTES

Vice-Chairman Meagher made a motion to approve the minutes as presented. Board Secretary Monahan seconded the motion. Motion passed 4 to 0.

APPROVAL OF CLAIMS

Vice-Chairman Meagher moved to approve the claims as presented.

Board Member Matt Swisher seconded the motion. Motion passed 4 to 0.

VISITOR COMMENTS:

None.

SUPERINTENDENT'S REPORT:

CEO/Superintendent Greg Toth welcomed attendees and informed the Board that Jet Dental, a mobile dental service, recently set up their mobile office in our second-floor conference room. Director of Human Resources Becky Dowden coordinated the event to provide dental cleanings and X-rays (billable to their insurance) for staff and their families. Jet Dental will return in March 2027.

FINANCIAL REVIEW

Vice President of Finance Harold Allen presented the August 2026 financial statements for the Electric, Water, and Wastewater Departments, highlighting information on each department's accrued assets.

PROJECT UPDATES

CEO/Superintendent Toth presented information on monthly reports including payment methods, NextERA comparisons, energy demand, energy usage, energy forecast and solar power generation. Mr. Toth shared the most recent energy market price trend as of September 22, 2026, stating electric prices are at an all-time high.

The Indiana State Revolving Fund (SRF) notified Logansport Utilities that the Indiana Finance Authority (IFA) approved its application for \$265,027 to fund drinking water sampling and planning services related to the PFAS water study. PFAS are per- and polyfluoroalkyl substances, commonly known as "forever chemicals." The Board will revisit the topic at its October meeting.

LEAD SERVICE LINE REPLACEMENT (LSLR) PROJECT

CEO/Superintendent Toth reported that the project is progressing and emphasized the importance of paving each patch as soon as the work is completed.

EASTGATE PROJECT

CEO/Superintendent Toth introduced the Eastgate Project, explaining that the former Ivy Tech building north of Kun's is being demolished, creating an opportunity to address recurring flooding in the area.

Water Collection and Distribution Director Cameron Dillon reported that Commonwealth Engineering evaluated the existing system near Market Street and West Roselawn. He explained that the undersized collection system contributes to flooding in the residential area between Market Street and Broadway. The proposed plan would significantly improve water collection in the area.

CEO/Superintendent Toth said the project may be funded with remaining financial obligation funds from the Long-Term Control Plan (LTCP) projects. Depending on material availability, construction is expected to take approximately one year from start to finish.

Director Wiseley discussed his conversations with Indiana Department of Environmental Management.

WATER RENEWAL CENTER/HEADWORKS

Wastewater Director Jackson Wiseley updated the Board on the Headworks Project and presented photos showing ongoing above-ground work on the grit removal building and the influent channel/wet well building.

Mr. Wiseley answered questions about the stormwater outfall at Spencer Park and clarified the distinctions among combined sewer overflows (CSOs), which contain sewage and stormwater; sanitary sewer overflows (SSOs), which occur during emergencies; and stormwater outfalls (SOs), which carry only stormwater and never contact sanitary flows. More than 30 stormwater outfalls are currently registered in the area.

WELLFIELD

CEO/Superintendent Toth informed the Board that the independent appraisals are being completed.

OLD BUSINESS

NONE.

NEW BUSINESS/SPECIFIC ISSUES

NONE

BOARD MEMBER COMMENTS

Board Secretary Monahan expressed his appreciation for a job well done for the team.
Board Chairman Dunderman agreed with Mr. Monahan.
Board Vice-Chairman Meagher congratulated the staff regarding the SRF award.

ADJOURNMENT:

With nothing further before the Board, Chairman Dunderman adjourned the meeting at 5:44pm.

Approved: _____
